

## Tribal Knowledge Alliance - Individuals

Tribal Knowledge Alliance (TKA) is a consortium of energy (operating and service) organizations. TKA members range from small independents to super major energy corporations to national oil companies.

Organized for the purpose of pursuing highly qualified candidates, TKA meets the current and growing demand for petro-technical professionals from every experience level including executives and board members. Current disciplines include:

- Geoscience
- Engineering
- Petrophysics
- Land
- Human Resources
- IT
- Business development
- Commercial
- Finance
- Asset Management
- Technical Management

TKA's unique approach to search and recruitment consists of:

**First** – enrolling highly qualified candidates, passively seeking exceptional career opportunities

**Second** – matching identified demands with ideal candidate preferences

**Third** – presenting only the most exceptional opportunities to candidates via confidential email

The benefit of this approach: Acting as your virtual agent, TKA pre-filters opportunities, and pushes them to your desktop with no active involvement, no time investment and no risk.
